

## A Report on Virtual Parent-Teacher Meet

**Organised by:** Department of English, Dr. B.K.B. College

**Date:** 12-05-2021

**No. of Participants:** 25

### **Brief Description:**

A virtual meeting was organised with the parents of all honours students of English Department to discuss about some aspects related to examination procedures, problems faced by students in virtual classes etc. etc. It was really a fruitful meeting as most of the parents joined the session willingly to express their ideas and issues related to academic matters, personal problems, issues related to travel and communication of the students to college, aspects related to text-books etc. With a supportive proposal from the part of the department concerned, some exposed issues were solved with logical references and some issues were proposed to be handled with the joint collaboration of the authority. More or less, the virtual meeting opened up some platforms whereby the department became able to sort out practical issues and thereby developed some steps to be applied on students in due course of time for their overall development in respective fields.

### **Snapshots of the Meeting:**
