Action Taken Report on Analysis of Student Satisfaction Survey Report of 2023-24

The college authority along with the Internal Quality Assurance Cell (IQAC) has carefully analyzed the feedback from the Student Satisfaction Survey for the academic session 2023-24. Based on the findings, the following actions have been taken to address students' concerns and enhance the overall academic and campus experience:

1. The majority of students expressed satisfaction with syllabus coverage, teaching preparation, and communication. To build on this positive feedback, workshops were conducted for faculty to further refine their teaching methodologies. Additionally, periodic reviews were scheduled to ensure timely completion of the syllabus.
2. Students recognized the availability of internships and field visits but expressed a desire for greater engagement in these activities. In response, partnerships were established with local industries and organizations to expand internship opportunities.
3. The feedback on toilet facilities, drinking water, and canteen services was mixed. To address these concerns, toilets were renovated to enhance hygiene and accessibility. Additionally, canteen services were reviewed to improve food quality and ensure fair pricing.
4. Students appreciated the encouragement provided for extracurricular activities and skill-building initiatives. To further support these efforts, a series of skill development programmes and employability workshops were launched in collaboration with external experts.
5. Campus cleanliness and greenery initiatives received positive feedback. Regular cleaning and maintenance schedules were continued to uphold these standards. Additionally, more trees were planted, and the green cover was expanded as part of the "Go Green Initiative."
